LRG Sector

Social Dialogue and Collective bargaining early on: the only possible way to approach emergency to ensure public service continuation while keeping workers safe

Necessary to deal with the crisis taking into account Public service workers' standpoint, also considering our role as trade union organization representing workers on the frontline

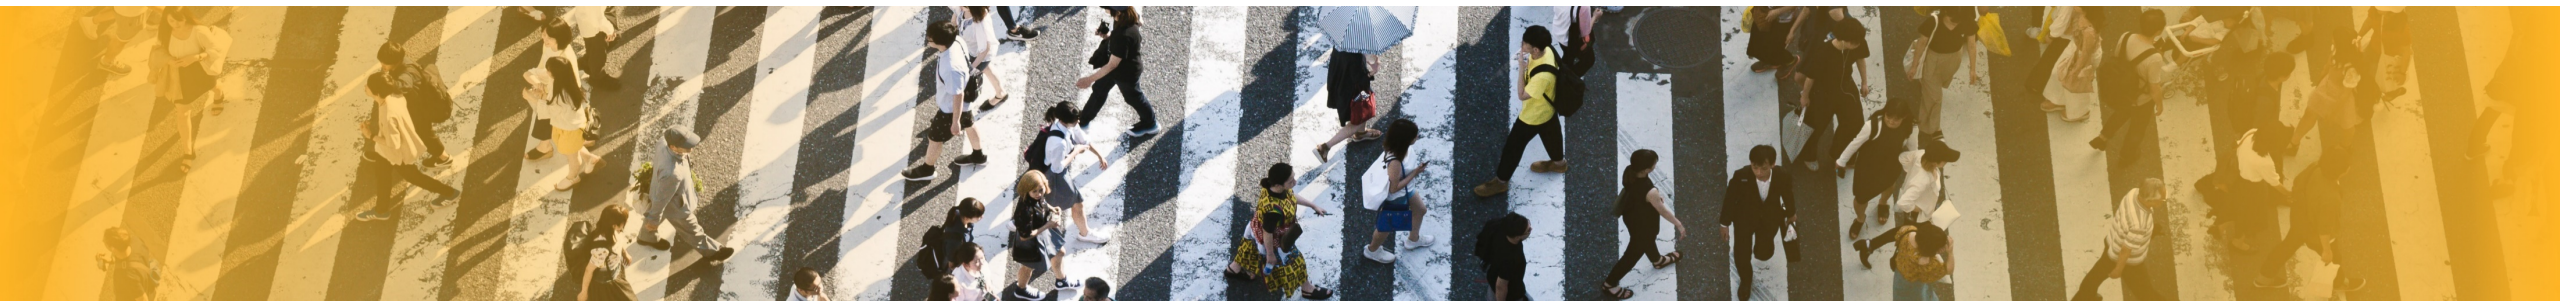

*A National Agreement
negotiated early on to protect
all workers' Health and Safety
during the COVID pandemic*

*Specific sectoral Agreements
– Waste sector*

From the very first moment of the covid emergency, we urged the Government and LRG employers and private sector employers to have an active and continuous dialogue with trade unions to deal with the crisis

*Specific sectoral Agreements
Public Administration*

Italian Unions protagonism

- 1) Constant Social Dialogue led to positive results, protecting workers and services*
- 2) The crisis has demonstrated that public response is essential, and more effective than private*
- 3) The after crisis will require stronger dialogue between trade unions and local administrations to approach dramatic effects of the economic crisis*

THANK YOU!
